**W**eingut Manz is a real family business in which four generations work together - and during that time, it has become an institution in Rheinhessen. The winery cultivates 25 hectares around Weinolsheim and has been producing an extremely good range for several years. It

is striking how skilfully and delicately cellar master Eric Manz integrates the wood aromas into the wines. His charming Grauburgunder shows superb savouriness, the Rieslings have a marked minerality throughout; the Pettenthal, with its persistent, intense aroma, towers above them all.
